

Add a touch of distinction to your home with stylish and functional shutters and louvres. Readymade or bespoke, you will find a wide selection of styles available for purchase and installation on the Central Coast.

Fixed hinge, sliding or bi-fold, shutters deliver flexible light control, airflow control, and insulation, so you can regulate the temperature of your home. Ideal for the interior, plantation shutters are made up of easily adjustable individual slats. Keep your lounge room cool in summer by filtering out the sunlight and maximising the airflow, simply by varying the tilt of your shutter's slats. Conversely plantation shutters will keep your home warm in winter, adding an extra layer of insulation.

If privacy is your main concern, then installing shutters or louvres is an excellent solution. UV retardant, to protect your interior fixtures and furnishings, shutters are designed for use inside and outside of the house. Install aluminium shutters around your deck or patio so you can sit outside and relax without being overlooked by your neighbours, or people walking or driving past your home. Strong and durable, aluminium shutters are treated with a UV powder coat finish, making them not only attractive but easy to maintain.

Interior shutters, come in various colours and styles. From western red cedar and basswood, to faux wood there's a Central Coast louvre and shutter supplier just waiting to provide you with the perfect solution. Where aluminium shutters are ideally suited to the outside, fauxwood shutters are great for wet areas like laundries, bathrooms and kitchens. Made of synthetic materials such as vinyl and PVC, slats can be solid or a composite polymer coated over aluminium or timber louvres. These hardwearing slats are fire retardant, termite proof and can handle getting wet.

Have you considered installing roller shutters to your home? Available for residential use as well as commercial use, roller shutters provide a wealth of benefits to the home owner. They are great at minimising outside noise, so are fantastic for people who live near busy roads or who have noisy neighbours!

If you want to make your home more secure when you are away on holiday, at work, or sleeping at night, install roller shutters to your windows and doors. In addition to being a great deterrent to thieves, these types of shutter will protect your windows in stormy or windy weather, and can block out up to 90% of the heat from direct sunlight. Depending on the manufacture of your roller blinds, they can even protect your home from bushfire. Fireproof roller shutters reduce heat so your windows are less likely to explode and the fire has no entry point to your home.

If you have an unusual shaped window, skylight or even a glass roof, never fear. The expert shutter and louvre businesses on the Central Coast will be able to manufacture and install a custom-made shutter for you. Enclose your patio, secure your holiday home, or even your business, with the quality shutters available in your region.
