

I am a qualified Hair Stylist & Makeup Artist for the film, television and commercial industries. My specialty is in natural and beauty hair and makeup for women, grooming and 'no makeup' looks for men as well as special effects and prosthetic application. I also have experience in high fashion hair and makeup for editorial and commercial projects.

I have been Head of Department or Designer for several feature films, television series and commercial projects, so am well versed in organising script and character breakdowns, supervision of continuity for the department and managing budgeting for productions. I have also worked as an additional Hair & Makeup Artist on bigger budget film/TV so can manage well in a fast paced team environment.
